MARTIN L. FLASK, of lawful age, called for examination, as provided by the Federal Rules, being by me first duly sworn, as hereinafter certified, deposed and said as follows:

EXAMINATION OF MARTIN L. FLASK BY MR. BRENNAN:

- Q. Good morning, Mr. Flask.
- A. Good morning.
- Q. As I introduced myself off the record, my name is Terry Brennan. I, along with Sam Camardo, who is here with me, are attorneys representing Xerox in the lawsuit that has been filed by Xerox against the City of Cleveland in Federal District Court in the Northern District of Ohio, in which Xerox is seeking monies pursuant to a contract between Xerox and the City of Cleveland.

You understand that you are here today to have your deposition be taken?

- A. Yes, I understand.
- Q. For purposes of the record, if you could just, please, state your full name and spell your last name for the record?
 - A. Martin, middle initial L, last name

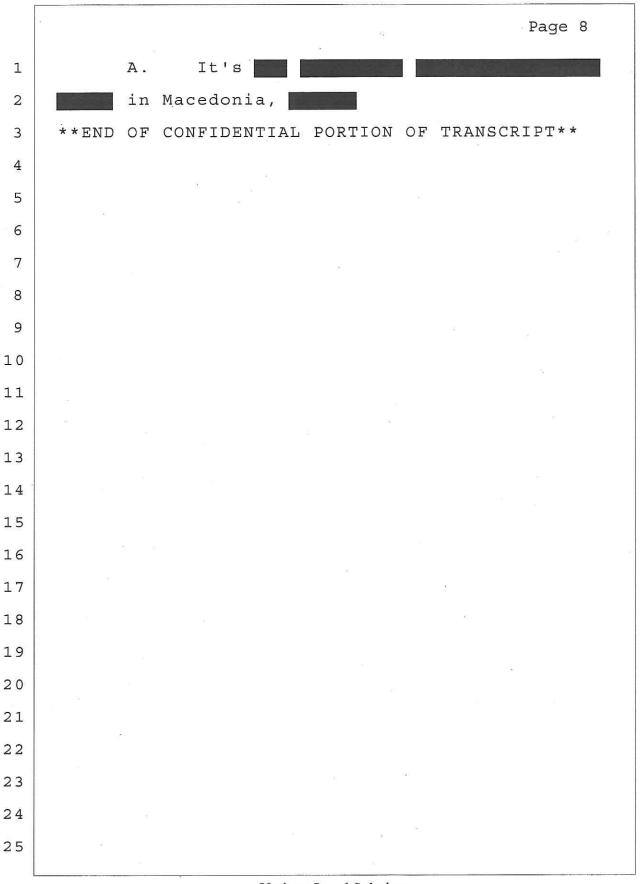

Page 6 is Flask, F-L-A-S-K. 1 And, sir, what is your current 2 Ο. residential address? 3 Is it relevant to this? 4 It is. There may be a point in 0. 5 time where we need to subpoena you to testify 6 at trial. 7 So the purpose of my residence is Α. 8 for potential subpoena purposes only? 9 Correct. And we have a protective 10 0. order in the case so nobody is planning on 11 sharing what is public information outside of 12 13 attorneys. MS. DINEHART: We'll object to the 14 extent that he used to be a former police 15 officer and he was subpoenaed, subject to the 16 subpoena, through the City of Cleveland and he 17 is here. 18 MR. BRENNAN: Understood. 19 But, sir, there could be a point 20 0. where your relationship between now and the 2.1 time of the trial terminate. Either because 22 you resigned from the City of Cleveland or you 23

are terminated from the City of Cleveland and

we would have to serve you with the subpoena

24

Page 7 1 directly. A. Or retire from the City of 2 Cleveland. 3 Or retire, which would be Ο. 4 5 fantastic. So we are just asking for your 6 7 residential address. Again, we have a protective order, we are not planning on 8 9 sharing it with anyone. **THE FOLLOWING IS DEEMED CONFIDENTIAL AND FOR 10 ATTORNEYS' EYES ONLY** 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25

Page 9 And do you have any plans to -- are Ο. you in the process of moving or do you have any plans to change that address? Α. No, I do not. Okay. And I trust that you have testified hundreds of times? Α. Yes. How many times have you testified Ο. in a civil deposition? Several dozen, I would say. And of those several dozen, have Ο. those all been in the capacity as the director of public safety or were they chief of police and other capacities? Other capacities other than director of public safety, as chief of police, or in my roles within the Cleveland Division of Police. And asking for an estimate, don't 0. need the exact number, but how many times have you testified in a civil deposition wearing the hat as the director of public safety? Less than five. Α. And I take it from those Ο.

experiences you are generally familiar with the

rules of a deposition and how a deposition takes place?

- A. Yes, sir, I am.
- Q. But just so there's no confusion and so that attorneys who have deposed you in the past may have had different rules, I just want to make sure we have a common understanding, so I am going to briefly review those, if that makes sense to you.
 - A. I understand.
- Q. I'm going to be asking you a series of questions. We have a stenographer here, who is going to be taking down the answers. She can only take down oral answers and she can only take verbal answers. So, in other words, uh-huh will not get transcribed. A nod of the head, a shrug of the shoulders won't get transcribed. Do you understand that?
 - A. Yes, I do.
- Q. It's also important -- I may ask questions that take longer than I would prefer to have them take. So if you could wait until I have completed a question before you provide a response it will make for a clearer record.
 - A. Understood.

Q. Okay. Not to be a modest, but I think I'm generally more or less okay about asking questions that are clear, but if there is ever a point in time where you don't understand a question, would you, you know, provide me the courtesy of letting me know, I don't know what you are asking, and I will try to rephrase or clarify the question?

A. I will.

- You have been designated on only a few topics that I think are relatively non-controversial. So I don't expect us to go all day. Okay? That being said, I think we will probably take a break every hour. If you need a break less than every hour or otherwise, just let us know and we will take a break. The one caveat to that is, if there is a pending question, I'm going to need you to respond to that question before we go ahead and take a break. Do you understand that?
 - A. Understood.
- Q. Okay. Do you have any questions about the deposition at all?
 - A. No, sir.

Page 12 Okay. And you are aware that Xerox 1 0. did file a lawsuit in federal district court in 2 front of Judge Polster seeking monies under a 3 contract? 4 Α. I am aware. 5 6 Ο. And are you aware that the contract was effective in June of 2013? 7 8 Α. I do not know the specific dates, but I do recall that it was 2013. 9 10 0. Okay. And I will show you --11 MR. BRENNAN: If I can please get 12 an exhibit sticker. 13 I am not here to hide the ball, so Ο. 14 marking for purposes of identification as Plaintiff's Exhibit 1. 15 16 17 (Thereupon, Plaintiff's Exhibit 1, 18 License and Service Agreement, was 19 marked for purposes of 20 identification.) 21 22 Q. And while you're reviewing it, just 23 for purposes of the record, it's a document, 24 the front page of which bears the label Exhibit 25 A, and it's now been marked with a sticker,

Page 13 1 Plaintiff's Exhibit 1. But if you look in the upper right-hand corner of the document it is 2 3 page ID number 67, and it continues through 4 page ID number 103. 5 Do you have the same document in front of you, sir? 6 7 Α. Yes, sir, I do. Okay. And do you recognize this 8 0. document to be the contract executed between 9 10 Xerox and the City of Cleveland, which, if you 11 turn to the beginning of the agreement --12 I believe that it is, although I 13 have not seen it since 2013. 14 Q. Okay. 15 I believe this is a contract 16 between the City and Xerox. 17 Okay. And if you -- page number 18 70, again, if you go on the upper right-hand 19 corner of the document, it's a document 20 effective June 1st, 2013, do you see that on 21 the first and second lines of the contract? 22 Α. Yes, I do. 23 0. Okay. And if you turn to, again, 24 following those numbers, page ID number 89, you 25 have that in front of you, sir?

Page 14 1 Yes, sir, I do. Α. And does that page bear your 2 Q. signature? 3 My signature, both printed and Α. 4 script, dated June 27th, 2013. 5 Okay. And you signed this contract 6 0. 7 on behalf of the City of Cleveland? Yes, sir, I did. 8 Α. 9 In your capacity as the director of 0. 10 public safety? 11 Α. Yes, sir. 12 Q. And moving forward through the document. You see various schedules? 13 14 MS. DINEHART: Can you reference a 15 page ID number, Terry? 16 Well, if you turn the page there, 17 there's an exhibit for compensation, then if 18 you turn, starting at page number -- ID number 19 93, do you see that there's a schedule for list 20 of sites? A. Schedule A, list of sites, 21 22 equipment to be deployed. 23 Okay. If you turn to 96, schedule 24 B, project implementation schedule? 25 Yes, sir, I see it. Α.

Page 15 Page 97, schedule C, processing 1 0. timeline? 2 Yes, sir. 3 Α. Okay. And then if you turn to the 0. 4 following page, page ID number 98, it's 5 amendment number one to the license and service 6 7 agreement by and between Xerox and the City of Cleveland. Do you see that? 8 Α. Yes, sir, I do. Okay. You were aware that there 10 0. 11 was an amendment to the contract we just 12 reviewed? I recall there was an amendment. 13 14 Okay. And if you move forward a Q. 15 few pages to page ID number 103. Again, same question, you signed the amendment on behalf of 16 the City of Cleveland? 17 Yes, sir, I did. August 23rd, 18 Α. 19 2013. 2.0 Again, in the same capacity as the 0. 21 safety director? 22 Director of public safety for the City of Cleveland. 2.3 24 Q. That is not a title you currently 25 have?

A. No, I do not.

- Q. And what was the tenure of that title in that position?
- A. I served as director of public safety from January 1st, 2006 to February 10th, 2014.
- Q. So at the time -- is it fair to -for purposes of the deposition, so we are
 talking about the same frame, when I refer to
 the contract, I'm going to be referring to the
 document you originally signed, dated June
 2013. And when I talk specifically about the
 amendment, if I do, I'm going to be talking
 about the last few pages that we just reviewed,
 signed in August of 2013. Does that make
 sense?
 - A. Understood.
- Q. But you understand that both items together became the contract between the City of Cleveland and Xerox?
 - A. Yes, sir, I understand.
- Q. And the reason you signed, both the contract and the amendment on behalf of the City of Cleveland, is because this was a contract that was designed to further public

safety; correct?

- A. That's correct.
- Q. In other words, if this were a contract that was designed for financial purposes or for the parks department, somebody else would have signed it, but you signed it because this contract was primarily designed for public safety?
 - A. That's correct.
- Q. Okay. I hate to ask obvious questions, but as the director of public safety, is it fair to say that your primary goal was to ensure the safety of the residents of the City of Cleveland, as well as visitors, whether those visitors are visitors who commute here for work or otherwise?
- A. That certainly was part of my duties and responsibilities.
- Q. Was that your primary duty and responsibility, to ensure safety?
- A. I provided executive oversight to both the divisions of police and fire and administrative oversight of emergency medical services, kennels, the division of corrections, the office of professional standards and the

office of emergency management.

So combined together it was a multitude of duties and responsibilities, but safety was the key word in my duties.

- Q. Correct. That's your primary goal, to ensure safety?
 - A. Yes.

2.0

- O. It was?
- A. Yes, sir, that's correct.
- Q. Okay. And are you aware today that you are testifying in two different capacities? One capacity in what's called a 30(b)(6)or in lay terms you will be testifying as the representative of the City of Cleveland.

 There's a federal rule of civil procedure that allows an organization to designate the person who has the most knowledge or all the knowledge available on behalf of the organization and that person will, in essence, give answers as the voice of the City of Cleveland. Do you understand that you are testifying in that capacity today?
- A. I understand that I'm testifying as a representative of the City of Cleveland, but I do not believe that I alone have insight and

Page 19 knowledge of all aspects of the contract or the 1 agreement. 2 Q. No. And we will break that down a 3 little bit. 4 You have been designated as a 5 (30)(b)(6) witness on a very few number of 6 limited topics. You are not being asked to 7 testify about everything that might be at issue 8 in the litigation. 10 Do you understand that you have been designated on a few particular topics to 11 be the voice of the City of Cleveland? 12 That's my understanding. 13 Α. 14 Ο. Okay. And it might help if I show you the notice of deposition. 15 16 17 (Thereupon, Plaintiff's Exhibit 2, Notice of Deposition, was marked for 18 19 purposes of identification.) 20 While I'm marking this, you also Q. 21 understand that you will be giving deposition 22 testimony as a fact witness? In other words, 23 you are going to bear the responsibility of 24 25 testifying as the voice and the knowledge of

Page 20 the City of Cleveland. You will be only 1 testifying as to things you personally know and 2 are aware of. 3 I understand. 4 Α. Okay. Showing you what's been 5 Q. marked for purposes of identification 6 7 Plaintiff's Exhibit 2, which is a document titled, rule 30(b)(6), notice of deposition for 8 City of Cleveland. 9 Do you have that document before 10 11 you, sir? Yes, sir, I do. 12 Α. And if you turn to page two of the 13 0. document, which bears the heading, matters for 14 examination. 15 I'm sorry, can you -- which page? 16 A. 17 0. Page two? Page two. Yes, sir, I'm there. 18 Α. Do you understand that for item 19 Q. numbers two, three and five of this matter for 20 21 examination, you have been designated the representative for the City of Cleveland? 22 23 Yes, sir, I do. 24 Q. Okay. Are you prepared today to 25 testify on those topics?

Page 21 I can testify to the best of my 1 Α. knowledge and memory. 2 As well as the City of Cleveland's 3 knowledge and memory? 4 That's correct. 5 Α. 0. And, sir, what did you do to 6 prepare yourself to be able to testify on 7 behalf of the City of Cleveland on these three 8 topics? 10 I reviewed my calendar of meetings that I had, as well as having conversations 11 12 with attorneys of the Department of Law of the 13 City of Cleveland. 14 Okay. Other than attorneys on behalf of the City of Cleveland, did you speak 15 16 with anyone else to prepare yourself to testify on these three topics? 17 I had a brief conversation with 18 19 project manager Larry Jones II. 20 0. When did you have that conversation with Mr. Jones? 21 I believe Wednesday of this week. 22 Wednesday of this week. 23 24 Q. Two days? Okay. 25 Yes, that's correct. Α.

Page 22 Okay. And I want to talk a little 1 0. bit more about that conversation. You reached 2 out to him? 3 Α. I did. 4 0. And what did you say to Mr. Jones? 5 Α. I asked him for the number of 6 respondents that we had to the request for 7 proposals. I remember the names of the 8 businesses that did respond to our request for 9 10 proposals, but I didn't have a memory of how 11 many actually responded to our RFP. 12 And did you tell him you were 13 asking this question because you were going to 14 be giving deposition testimony? Yes. Yes, sir, I did. 15 Α. 16 0. Okay. And was this a telephonic 17 communication or in person? 18 Α. No, it was telephone. And what was Mr. Jones's response? 19 0. 2.0 Α. He reminded me that there were five respondents to the RFP. 21 22 And, again, the respondents to the RFP -- RFP are a request for proposal? 2.3 24 That's correct. Α. For the -- what we are calling the 25 Q.

Page 23 2013 contract or the contract that's at issue 1 in the litigation? 2 Yes, sir, that's correct. 3 4 0. Who were the respondents? Redflex, KTS, Xerox, CATS CO, and 5 6 one -- one additional vendor. Okay. The name of whom just eludes 7 Q. 8 you right now? I don't recall at this moment. 9 10 Okay. But Mr. Jones did provide Q. 11 you with the name of --12 A. That's correct. 13 0. -- the names of all five? 14 Α. That's correct. 15 Was there anything else to the Q. 16 conversation or just simply quick and --17 I don't think the conversation 18 lasted more than three to five minutes, if I remember correctly. It was a brief 19 20 conversation. 21 0. What else was discussed during that 22 conversation? 23 Oh, I asked him who specifically --24 I did ask him the second question, who 25 specifically sat on the review team to review

Page 24 1 the request for proposals. On behalf of the City of Cleveland? 2 3 City of Cleveland and the Clerk of Courts' office. 4 Okay. Did he provide you a 5 Q. response to that question? 6 7 Α. He reminded me that there were three representatives from the City of 8 9 Cleveland, three from the office of Clerk Turner and himself. 10 11 Who were the three from -- on 12 behalf of the City of Cleveland? I do not know. We didn't -- I 13 14 didn't discuss that with him. 15 He just identified the quantity of Q. 16 folks rather than their identity? Yes, that's correct. 17 18 Ο. Okay. Separate and apart from what 19 he told you, do you remember who was there on 20 behalf of the City of Cleveland at the time? 21 Α. (Pause.) 22 In other words, as I understand 0. 23 your testimony, there were seven folks who were 24 deciding who is going to get this contract; 25 right?

Page 25 There were seven individuals that Α. were evaluating the responses for the requests for proposals. Okay. And who do you recall 0. wearing the City of Cleveland hat being one or more of those folks? Larry Jones II. Do you recall the two other Ο. representatives? There were three additional representatives from the City, I do not recall their names. 0. Were you one of the

- Q. Were you one of the representatives?
 - A. No, I wasn't.
- Q. So, in other words, you were not one of the folks reviewing the responses, five RFP responses, in deciding, hey, I should rank this one first or I want --
 - A. No, I did not.
- Q. Okay. Do you recall who, if anyone, on behalf of the clerks of courts had that responsibility at the time?
- A. I do not know the specific names.

 Other than the fact that there were three

24

representatives.

- Q. Okay. And do you know who made the determination, first, how many people would be involved in reviewing the responses and, secondly, who would compromise -- who would compose that committee?
 - A. I do not recall.
- Q. Okay. And just to be clear, it was not your decision, we need X number of people to review the responses or the composition of the committee should be these folks, that was not your -- your bailiwick?
- A. There may have been a recommendation made, but I do not recall who made the recommendation or the composition itself, how that structure was designed.
- Q. Okay. Do you know why the Clerk of Courts would participate in this type of review process?
- A. Well, the clerks of courts in their role handles all the buying structures, payments, in a relationship between public safety and, specifically, the Division of Police and the Clerk of Courts was integrated so that -- so the traffic camera enforcement

Page 27 program really was broader than just the 1 2 cameras and the police force. It involved the Clerk of Courts. 3 Because they are the folks that 0. have to process the actual tickets that are 5 issued and the payments that come in as a 6 7 result of the tickets? That's at least a portion of their 8 Α. 9 duties and responsibilities, certainly. Okay. As well as monitoring the 10 docket and dealing with filings and other 11 12 responsibilities? 13 That's right. 14 You understand that the contract we Ο. have been talking about is not the first 15 contract the City of Cleveland had for traffic 16 enforcement; correct? 17 The first contract goes back to 18 19 2005, if I remember correctly. 2.0 And with whom did the City of 0. Cleveland enter into that contract with? 21 I believe it was ACS. 22 Α. 2.3 And do you know where they are 24 located out of? 25 No, I do not. Α.

- Q. And did there come a point in time where ACS stopped being the provider for traffic enforcement for the City of Cleveland?
- A. I believe there was a name change, but the timeline for that change is unclear. I don't recall.
 - Q. Okay. ACS became Xerox?
 - A. That's my understanding.
- Q. Okay. Do you know how many different contracts from the first time the City of Cleveland entered into a contract for traffic camera enforcement until the present the City entered into?
- A. I remember appearing before
 Cleveland City Council in 2011 asking Council
 for an extension of the current contract with
 ACS. And the City Council did approve that
 contract extension sometime in 2011.
- Q. So it is your understanding that there was a contract approximately 2005, an extension in 2011, and this contract in 2015?
 - A. That's correct.
- Q. And do you know whether the composition of the people who are making the decision or at least the recommendation to

2.5

Page 29 1 enter into a contract was the same in 2005 as it was in 2013? 2. The 2005 contract was entered into Α. 3 4 by the administration of then Mayor Jane 5 Campbell. Whether or not there were any individuals that were involved in that original agreement in 2005 to the 2011 extension, I'm 7 8 not aware of any. . 9 Were the titles largely the same, regardless of the individual folks who were 10 11 holding that title? In other words, there were 12 people from the City of Cleveland, there were 13 people from the Clerk of Courts, and Mr. Jones 14 or his predecessor was involved? 15 MS. DINEHART: Objection to the 16 extent he said he was not sure. 17 I don't recall. Not that I don't 18 recall. I don't know. 19 0. Okay. Were you involved in the 20 issuance of the original contract at ACS? 21 In 2005? Α. 22 0. Correct. 23 Α. No, sir. 24 But you were involved in the 25 renewal in 2011?

A. Yes, sir, I was.

- Q. And did you make the recommendation that the renewal should take place?
- A. I did make a recommendation for a renewal extension to take place to allow the department of public safety to prepare a request for proposals to explore the feasibility of whether or not, number one, to continue the program, number two, whether or not to identify new technology that might be available.

So when we asked for the extension in 2011, I made a commitment, as did the City, to develop the request for proposals and seek additional services or other services.

- Q. And did that go out through an RFP in 2011?
- A. I believe it was distributed in November of 2012. A request for proposals was developed and distributed to vendors, potential vendors, I think, in November of 2000 -- well, it was late 2012.
- Q. And just like the 2013 contract, did more than one vendor respond to that RFP?
 - A. That was the RFP that we are

talking about, the five vendors we are talking about included Redflex, I think it was ATC, the names of the five companies escape me right now.

- Q. Okay. And just to be clear, so at the time the extension took place in 2011, there was no RFP at that point in time?
- A. There was not. None had yet been developed.
- Q. Okay. And having been through the relationship with ACS, you made the recommendation to whom that the contract should be extended between ACS and City of Cleveland?
- A. I had conversations with the current finance director, Sharon Dumas, our staff, including the Chief of Police, project coordinator, Larry Jones, and made a recommendation to Cleveland City Council.
- Q. To continue the relationship with ACS?
- A. For a period of two years, if I remember correctly.
- Q. And what factors did you consider at that point in time to determine whether or not to continue that relationship?

2.3

A. I thought the program had value.

And I believe that ACS was providing good service to the City of Cleveland. But we also recognized at that time that technology had moved along to the point where there were other options and opportunities available to the City of Cleveland in terms of the traffic enhancement camera program that needed to at least be considered.

The system that originally had been installed was in 2005, in my opinion, was ahead of others, was dated and could and should be enhanced.

- Q. And when you refer to value, you are not talking about economic value, you are talking public safety value?
- A. I'm specifically talking about public safety value. I was familiar with the trend, enforcement efforts, accident rates, within the City of Cleveland. And I believe, in my opinion, and I made the argument it had value to the residents.
- Q. For the extension, were you involved at all in dealing with Xerox directly about -- or ACS about negotiating the extension

or talking about what technology could be improved as part of the extension?

- A. I don't recall having a specific role in those discussions, although I may have been involved at some level of conversation. I don't believe that I personally was involved in that, discussions with the vendor at that time.
- Q. Okay. But fair to say as of 2011 you were satisfied with the work that ACS and Xerox had done on behalf of the City of Cleveland, recognizing you are always looking for improvement?
- A. I believe that the service that they provided, in my opinion, was very good, very responsive, other than a few minor issues that were identified. The service that they provided, in my opinion, was very good.
- Q. You've indicated that as part of your preparation to testify on behalf of the City of Cleveland you reviewed your calendar?
 - A. Yes, sir.
- Q. Is that a paper calendar or an electronic calendar?
- A. I looked at my most re -- when I moved from public safety to the Office of the

Page 34 Mayor in February of 2010, I was able -- in 1 2014, I was able to look at the data that I currently have available regarding 3 4 conversations and dates and so forth. not have access to the information prior to 2014, other than just a few, because different 7 systems, different servers. I just didn't have access. 8 9 Okay. So in preparing for your testimony today, you were only able to review 10 11 calendar information --Calendar information, there was a 12 Α. short period of time in 2013 and 2014, up to 13 14 the current time. 15 MS. DINEHART: Please, let him 16 finish the question. 17 THE WITNESS: I'm sorry. Okay. 18 Yeah, we are getting into -- I can 19 speak fast on occasion, I have been warned by stenographers before. I will try to measure it 20 21 here. Again, you have reviewed an 22 23 electronic calendar, not a paper calendar? 24 Α. Electronic. 25 Q . Do you know at what point in time

Page 35 that calendar started for purposes of your 1 review? 3 Around September of 2013. Okay. And the program the City 4 5 uses is Microsoft Outlook? Α. Yes, that's correct. 7 0. Okay. And is it your practice, when you make a calendar entry, to sometimes 8 put a narrative on that calendar entry? 9 10 Yes, it is. Α. 11 So, in other words, some people put 0. 12 a calendar entry that says, for example, 13 deposition from 9:30 a.m. to X p.m. and just 14 leave it at that. Was it more your practice to 15 put a calendar entry that would say, I had a 16 conversation with so and so and this is what we 17 discussed? 18 Α. It depends. If it was an 19 appointment for a deposition like today, my 20 calendar would just articulate the fact that 21 I'm scheduled to be here from 9:30 to some 22 period of time without any details. 23 If I had a conversation with 24 someone and I thought it was worthy or 25 important to maintain a record, I would make a

Page 36 narrative section. I would provide a 1 narrative. 2 Q. And you would do that after the 3 fact; correct? 4 Generally after the fact, that's 5 correct, or I would update my calendar. 6 So, in other words, as opposed to a 7 Ο. lot of folks using a calendar as a prospective 8 measure, you would, in essence, use the 9 10 calendar as kind of a diary of what happened and what occurred during a conversation? 11 12 Α. Both. 13 0. Both? (Witness nodding affirmatively.) 14 Α. Okay. Fair enough. 15 0. 16 Did you review any e-mails in preparation for the testimony today on behalf 17 18 of the City of Cleveland? 19 Α. One or two e-mails. If I -- one or 20 two. And they involved, 2013, developing a messaging for the traffic enforcement camera 21 22 system, the benefit that it had for the City of 2.3 Cleveland. 24 I remember working with Xerox to 25 create a message, its value, in terms of

accident reduction and enforcement of speed reduction and quality of life in the City of Cleveland. I remember at least one conversation with a representative of Xerox in that regard.

- Q. Is this because there was a potential ballot initiative that might negatively impact the traffic program?
- A. In 2013 I wasn't aware of any ballot initiative. The legislation had been enacted by Cleveland City Council and we were looking at, you know, this is good for the citizens of Cleveland, thus created a more timely message to the citizens on its value. And that was around -- between September and December of 2013.
- Q. Why were you doing that at that point in time if the program had been in place for approximately eight years?
- A. Well, there was significant enhancement to the program. We had an increased number of traffic cameras located throughout the City of Cleveland. We had increased flexibility with the mobility, with the mobile traffic enforcement cameras, and we

2.2

had the opportunity to use the cameras as surveillance for the Division of Police.

These were options and opportunities that weren't available to us before the new contract.

- Q. But, in other words, would you need to message to the electorate unless you viewed there to be some potential exposure to the Traffic Camera Program or was this simply just PR?
- A. Well, it was PR, but it was safety messaging. First alert people, of course, we had to make a notice to the public about where the cameras were located. That was a requirement that we do so.

So that was part of the message, that we had increased the number of the traffic cameras, this is where they are located, put it on the City's website, what's the value of the program. All of those things were done, not only to messaging, but to be in compliance with the legislation that was enacted by the Cleveland City Council.

Q. And with whom did you speak at Xerox about those topics?

- A. You know, I spoke with Larry Jones, again, who interacted or help facilitate with someone from Xerox, but I don't recall whom.
- Q. Okay. And what specifically do you recall doing to message to the electorate the benefits of the Traffic Camera Program at that time?
- A. It was -- I worked with then director of communications, Maureen Harper, H-A-R-P-E-R, put some media advisories. I know it was put on the City's website.

At that time we had a safety blog, a blog. It was called CLE Safety, that we posted. And we shared it with members of Council and others.

- Q. Okay. Do you recall giving any speeches on the topic of the benefits of the Traffic Camera Program at that time?
- A. I do not recall it, during my tenure as safety director, ever -- other than testimony in front of City Council or maybe a media inquiry, which I might be responsive to. I do not recall ever giving any public presentation on the program itself.
 - Q. Okay. Just stepping back to your

role as a representative on behalf of the City of Cleveland, have you testified to everything you recall discussing between yourself and Larry Jones earlier this week?

A. Yes, sir.

- Q. And you spoke with your counsel as well?
 - A. That's right.
- Q. I don't want to know things you discussed with your counsel about strategy or otherwise, but as a result of preparing for your 30(b)(6) testimony today, did you learn new facts over the course of the past few weeks that you didn't know prior to 2016?
- A. I learned that there were five respondents to the RFP, where my memory originally had suggested three.
 - Q. Okay.
- A. I learned -- that was one thing that I did, in fact, learn. And I did learn the number of individuals that was actually participating in the review of the request for proposals. That it was seven individuals, three from the clerk, three from the City of Cleveland and Larry Jones II.

- Q. Okay. What you just testified to, those are the only facts you're aware of today that you wouldn't have been aware of in 2015 or the end of 2014?
- A. No, sir, that's -- those that I just identified are that which I actually recall in my memory rather than learn, but that's correct.
 - Q. Okay.
 - A. Yeah.

- Q. We had a double negative in there, but you agree with my statement?
 - A. Yes, I did.
- Q. Okay. Is it fair to say, and I think you have already testified to this, that the City of Cleveland implemented the Traffic Camera Program to enhance public safety?
 - A. I believe that's the motive.
- Q. That was certainly your motive as the director of public safety?
 - A. I knew that the revenue stream, although it was significant, it only represented about one percent of the City's annual operating budget. So, you know, one percent is -- although the dollar amount seems

high, the real impact, in my opinion, was on public safety.

- Q. And when you are talking about one percent, at the time frame we are talking about during the existence of the contract that's at dispute in the litigation, your annual budget was approximately 500 million dollars?
 - A. 525 to 550, depending on the year.
- Q. So the Traffic Camera Program was generating approximately 5 million dollars or less on an annual basis?
- A. The number fluctuated, actually decreased through the years, but if I remember, from 2013 it was 5 point 2 million dollars.
- Q. Is it fair to say, as the director of public safety, you viewed the decrease in revenue as actually, which may be counterintuitive, a positive development?
- A. I certainly did. I saw that the number of -- I believe there was a direct correlation between the number of citations, that decrease, and the decrease in revenue stream, along with the decrease in accidents being beneficial to the City of Cleveland.
 - Q. Right.

So are you generally aware that in the time frame of 2007, 2008, the revenue generated from the Traffic Camera Program was approximately 9 million dollars, and by the time of this contract in 2013, that had decreased to about 5 million dollars?

- A. Well, I knew -- I remember that it was higher and that it was 5 point 2 in 2013, but that's where my memory sits, but I do not remember it being 9 million dollars, I don't remember the exact numbers.
 - Q. Okay. And in ballpark terms --
 - A. It --

- Q. -- revenue was cut about in half during the life of the program, which you viewed as a positive development?
- A. What I viewed as a positive, of course, was the reduction in accidents and traffic citations and notices being issued.
 - Q. Right.

And all things being equal, you would prefer to have the City of Cleveland have more revenue rather than less revenue, but the fact that the revenue was decreasing you viewed as a positive?

- A. Well, I viewed it as a benefit to the program, yes.
- Q. Okay. And to the program, a benefit to the City of Cleveland?
- A. It was Operation Safe Streets was the name the City of Cleveland named the program. We are referring to the traffic camera enforcement program.
- Q. And Operation Safe Streets, was that solely limited to the Traffic Camera Program or were there other --
 - A. There were --
 - Q. -- components to that program?
 - A. I'm sorry, I cut you off there.

There were other components regarding -- including neighborhood traffic enforcement by the officers on patrol, but Operation Safe Streets was a combination of enforcement issues that were linked to the traffic camera enforcement program, but not standing alone.

Q. So, in other words, you're aware, generally, that following the ballot initiative in November, the City of Cleveland terminated the Traffic Camera Program?

Page 45 Α. 1 Understood. 2 MS. DINEHART: Objection. 3 And following that termination, did 4 end in its entirety or were there components that still remained? 5 6 Α. I cannot -- because of the change 7 in my role in the Cleveland City Government, I'm not familiar. I do not know. Okay. You don't know whether there 10 were some vestiges that remained or whether it 11 was all scrapped after the ballot issue? 12 I cannot answer that question. 13 do not know. 14 Are you aware of any components of that operation that would potentially remain 15 16 viable following the end of the traffic 17 cameras? 18 I would believe that 19 neighborhood -- again, from my own experience rather than knowledge, I would believe that 20 21 neighborhood traffic enforcement by the 22 Cleveland Division of Police would continue. 23 You are just not aware sitting here 24 today one way or the other? 25 Α. The only measurable item that No.

I can identify is that I did some analysis late last year and I saw that pedestrian fatalities in the City of Cleveland 2015 almost doubled over 2014.

- Q. Okay. So following that, you know, it's fair to say that it's your testimony that Xerox and the City of Cleveland Traffic Camera Program had a positive impact on public safety?
- A. I believe it had a very positive impact.
- Q. And as you have just indicated, the corollary is true, which is terminating the program had a negative impact on public safety?
 - A. I believe that it did.
- Q. Okay. In other words, fatalities increased, rates of accidents increased, number of speeders increased?
- A. The only thing that I can clearly articulate in response is from my own experience and insight, is that the pedestrian fatalities have increased, I'm not familiar with the accident rates currently.
- Q. Okay. So following the termination of the program, pedestrian fatalities increased. Do you know whether driver

Page 47 fatalities increased? 1 2 Α. I do not. Okay. But you are certainly aware 3 that pedestrian fatalities increased? 4 That's correct. 5 The goal of the Traffic Camera 6 0. Program was to reduce incidents of driver 7 speeding? 8 (Witness nodding affirmatively.) 9 Α. If you could speak out loud, you 10 0. are nodding your head. 11 I was waiting for you to stop 12 Α. 13 asking. 14 I will continue my --0. 15 Α. Okay. But one of the goals -- fair 16 response on your behalf. One of the goals of 17 18 the Traffic Camera Program was to reduce the incidents of folks speeding? 19 That's correct. 20 Α. 21 Another goal was to reduce the 0. incidents of folks running red lights? 22 23 Α. Yes, sir. Okay. Those two things together 2.4 0. 25 had the ultimate goal of reducing accidents and

injuries, including fatalities?

A. Yes, sir.

- Q. Okay. And, in other words, the Traffic Camera Program was put in place, for lack of a better phrase, to stop law breakers?
 - A. Yes, sir.
- Q. Okay. And the goal is to ensure the safety of both drivers and pedestrians?
 - A. Yes, sir.
- Q. In addition to the traffic cameras themselves reducing the number of the folks speeding and running red lights, is it fair to say there are additional benefits from implementing the traffic cameras? And if you need me to identify some, I'm fine doing so, but are you aware of other benefits other than people not speeding as much and not running red lights as much?
- A. I believe that it enhanced the perception of safety within the City of Cleveland. People driving into the community would know in advance that, you know, you have to be alert and aware of the laws and drive safely.
 - Q. So one of the benefits is actually,

people -- whether or not I'm driving through
the City of Cleveland to get a ticket, I can
see there's a sign up there and there's a
camera up there that say, hey, you know, we are
the City of Cleveland, we are kind of
monitoring you, we are making sure you are
complying with our laws. That's one of the
benefits, whether or not you issue a ticket?

- A. That's right.
- Q. And, in addition, there's some benefit to the City of Cleveland, if it didn't have traffic cameras, it may choose to deploy officers to monitor speed and red light violations; correct?
- A. It would require increased employment of police officers to accomplish the same goal.
- Q. And if you are having a police officer monitor an intersection as opposed to a traffic camera, that would cost the City of Cleveland hundreds of thousand of dollars, if you take into consideration salary and benefits of the officer or officers?
 - A. That's right.
 - Q. And by freeing up officers who

otherwise might be monitoring intersections that the traffic cameras monitored, those officers could then be re-deployed elsewhere within the City of Cleveland to benefit public safety otherwise; correct?

A. Yes, sir.

- Q. Alternatively, the City of Cleveland could hire a few officers and employ fewer officers, but if the officers aren't monitoring intersections, they can be used elsewhere to stop drug dealers or to get guns off the feet or otherwise?
- A. Or respond to other calls for service, multitude of other services, yes, and responsibilities, yes, sir.
- Q. You would agree with my statement and the additional items that you added on?
 - A. Yes, sir.
- Q. And is it fair to say that the traffic cameras had a deterrent effect, not only where they were located, but throughout the City of Cleveland?

So, in other words, I'm driving in from Shaker Heights to go work downtown at the PNC Building and I see a traffic camera and the

signage. I might not only run red lights, but slow down in that area, that might continue throughout my tenure of driving through the City of Cleveland?

A. Yes, sir.

- Q. We talked a little bit about the revenue decreasing over time after the traffic cameras were implemented. The same would be true of the number of citations issued and paid; correct?
 - A. That's correct.
- Q. So, in other words, the program's implemented in 2005, by 2013 the number of citations are on the decline, both for red light and speed?
 - A. Yes, sir.
- Q. And, again, you view that as a positive because people are now following laws?
 - A. Yes, sir.
- Q. Okay. In other words, it's not as though 50 percent fewer folks are driving on the street, just, you know, 50 percent fewer folks -- or more folks are following the laws?
 - A. That's my belief.
 - Q. Okay. Is it fair to say that the

Traffic Camera Program ended following a ballot initiative, not because of a decision you made to end the Traffic Camera Program?

A. Yes, sir.

- Q. In an ideal world, is it fair to say, the Traffic Camera Program, in your mind, would have continued 2015, 2016 and to the present?
- A. It would have continued at least through the life of the contract.
- Q. And can you think of any reason why you wouldn't have wanted it to continue after the life of the contract?
- A. I cannot think of any reason why I would recommend that it -- the program end.
- Q. Can you think of any initiative the City of Cleveland has undertaken in its history that has been more effective in reducing the incidents of speeding and running red lights, other than the Xerox/City of Cleveland Traffic Camera Program?
- A. I do not have the statistical -historical statistical information to compare
 it against. I'm certainly aware of programs
 that have been in existence in the Cleveland

Page 53 Division of Police historically that were 1 viewed to be appropriate, even necessary, but I just don't have any statistical information 3 upon which to compare. 5 Ο. Okay. And I won't extend it to the entire history of the City of Cleveland --6 Α. Yes. -- but during your tenure, can you 8 9 think of any program the City of Cleveland enacted that was effective at reducing the 10 11 incidents of speeding and running red lights as the Xerox/City of Cleveland Traffic Camera 12 13 Program? 14 No, sir. Α. 15 MS. DINEHART: Objection. This is in his tenure as the 16 17 director of public safety? 18 MR. BRENNAN: Correct. 19 With that addition, as director of 0. 20 public safety, can you think of any other that was as effective? 21 22 Α. No, sir. 23 Q. Pardon me. 24 What services did Xerox provide under the contract that we've discussed? 25

- A. Installation, coordination, providing information to the Division of Police. Networking, interaction, for both the City and the Clerk of Courts.
 - Q. Okay.

2.2

- A. Specific within the program itself, the three areas that I articulated with the new contract, of course --
 - Q. Correct.
- A. -- with the offer to increase the number of fixed locations throughout the City of Cleveland, in those areas that were approved. The ability to utilize the fixed camera location for the Division of Police as surveillance cameras, and increased mobility of the mobile and traffic enforcement program, the mobile cameras.
- MS. DINEHART: Terry, I would like to note for the record, is that one of the 30(b)(6) section or are you asking under his personal knowledge?
 - MR. BRENNAN: No, I'm sorry.
- Q. And I might have referred earlier, if you look at your notice, I understand you are the designated representative on topics

Page 55 two, four and five, I might have accidentally 1 2 said topic three. 3 MR. NATHANSON: Two, three and five. 4 MS. DINEHART: Two, three and five. 5 6 MR. BRENNAN: Okay. So two, three and five you have in 7 0. front of you? 8 9 Α. Yes, sir. MR. BRENNAN: Yeah. It's a fair 10 objection. 11 12 0. And I'll get back to your 30(b)(6), but I would like to sort of -- we are in your 13 30(b)(6) deposition, I will take a break at 14 some point in time and I will just have you 15 testify in your personal deposition capacity, 16 17 so at a fair point to take a break --18 MS. DINEHART: I just want to 19 clarify, then you are only talking about 30(b)(6) knowledge as of right now, you will 20 let us know when you switch to personal 21 knowledge, is that what you are saying? 22 23 MR. BRENNAN: We will take a break 24 and we will go to personal knowledge. 25 MS. DINEHART: Okay.

Q. So right now we are within the umbrella although I crossed the line, and I apologize, into your factual knowledge.

Your testimony today, is it fair to say, that's as the representative of the City of Cleveland?

A. Yes, sir.

2.0

2.5

- Q. Okay. When you initially considered whether or not that Xerox or ACS, depending on what you consider the name to be at the time, to continue to be the vendor for the City of Cleveland for the Traffic Camera Program, what factors were most important to you?
- A. The development of the request for proposals was, in my opinion, extremely important. Although I was not directly involved in the development of the request for proposals, those items that I wish to see included within the request for proposals was made very clear for the project coordinator and anyone else involved at that time.

Specifically, I wanted those three things. I wanted to increase the number of fixed locations located throughout the City of

Page 57 Cleveland, increase the mobility of the mobile 1 cameras, and to have the ability for the 2 Division of Police to be able to utilize the 3 fixed camera locations as surveillance cameras 4 for operational and forensic purposes. Those 5 were the three key items that I wanted to see 7 included within the request for proposals. That, to my understanding, was, in 8 fact, incorporated in the respondents to the 9 RPF, responded to a multitude of issues, but 10 11 that being -- those three were included. Q. Did you review the RFP before it 12 was issued? 13 I don't recall. I don't recall. 14 Α. 15 Did you review all five responses 0. 16 to the RFP? 17 Α. No, sir. 18 Q. Okay. Did you review any of the 19 five responses? No, sir. 20 Α. 21 Did somebody prepare for you or 22 otherwise give you information summarizing what 23 the responses were to the RFP? I believed I was briefed. 24 25 remember being briefed by the project manager,

Page 58 Larry Jones. So certainly I was briefed on the 1 2 responses and the progress, but I don't recall 3 any specific briefing. If the question is briefing documents, I do not recall it. 4 Okay. In other words, what 5 Q. information did you have available when 6 7 considering the responses to the RFP and making a recommendation? The recommendations from the 10 project manager and members of the project or the review team. 11 12 0. And who were those folks? 13 Again, I don't recall all six of 14 their names. I do not recall. 15 Fair to say that the reason the 0. 16 City of Cleveland chose to continue its 17 relationship with Xerox is because it viewed it 18 as the best possible provider of traffic camera 19 services? 2.0 MS. DINEHART: Objection. 21 You can answer. 22 The opinion of the project 23 coordinator and the team, they were most 24 responsive to our request for proposal. 25 0. Best technology?

Page 59 Α. 1 Best --MS. DINEHART: Same objection. 2 Α. Yeah. I do not know that they were 3 the best, but certainly provided the services 4 5 that we were seeking. Okay. Do you recall anyone 0. 7 offering better technology? MS. DINEHART: Objection. 8 9 Α. I can't identify that there was. Okay. One of the reasons that the 10 City of Cleveland chose Xerox is because it 11 provided the best ticket processing? 12 13 MS. DINEHART: Objection. They provided good ticket 14 15 processing. Again, I do not know that they were the best among all the five respondents in 16 17 that specific component. Was the cost of working with Xerox 18 a factor in the determination by the City of 19 Cleveland to choose Xerox other another vendor? 20 MS. DINEHART: Objection. 21 It was a considerable amount of Α. 22 discussion on funding or revenue stream in that 23 there were at least two options, one, a fixed 24 cost or a percentage of violations. We made a 25

Page 60 conscious decision to go forward on the side of 1 a fixed cost. But this wasn't a lowest bid RFP? 3 0. Α. No, sir, it was not. 4 Do you know where Xerox stood in 5 Ο. terms of the estimated cost of working with 6 7 Xerox versus other vendors? I do not recall that. Α. 8 And that wasn't a primary driver in 9 recommending Xerox over other vendors; correct? 10 11 MS. DINEHART: Objection. Could you ask that question again 12 Α. for me, please? 13 And that wasn't a driving factor in 14 the City of Cleveland choosing Xerox as opposed 15 to other vendors? 16 17 Α. I do not believe it was. 18 Q. Okay. Fair to say that as of 2013 that the City of Cleveland was very satisfied 19 with the services Xerox had been providing? 20 I believe the City was satisfied 21 Α. with the services provided. 22 23 Okay. And I'm happy to show you documents, but I think you said, you know, 24 2.5 extremely satisfied overall?

A. Yeah. Other than a few -- again, other than a few issues where we had cameras that were inoperative for an extended period of time and not being notified of that, I think our relationship with ACS and Xerox was very good.

MR. BRENNAN: Okay. Why don't -- we have been going just about an hour, why don't we take a five-minute break right now --

MS. DINEHART: Okay.

MR. BRENNAN: -- if that makes

12 sense?

(Short recess had.)

- Q. Sir, I think you already testified to this, but I'm just reviewing my notes, is it fair to say that the Xerox/City of Cleveland Traffic Camera Program had a tremendous positive impact on public safety in the City of Cleveland?
 - A. Yes, sir, it did.
- Q. And we talked a little bit about your calendar or what I inartfully referred to as your diary entries here. I want to hand you an exhibit and understand how you keep records here.

Page 62 7 2 (Thereupon, Plaintiff's Exhibit 3, 3 Calendar Entry, Document CL019, was 4 marked for purposes of identification.) 5 6 7 Showing you what's been marked for 0. 8 purposes of identification as Exhibit 3. you recognize this document? 9 10 Α. Yes, sir, I do. 11 0. Okay. And is this an example of 12 something that you would have put into your 13 Outlook Calendar to memorialize a conversation that you had? 14 15 Yes, sir. Α. 16 And is this something that you 0. 17 printed off in connection with the litigation? 18 I don't know that I printed it or 19 provided it to the City's representative. I 20 may have provided it to them electronically. 21 0. One way or the other --22 It was provided to the Law 23 Department of the City of Cleveland. 24 0. And in this particular 25 communication you're discussing your

Page 63 experiences with Xerox you write, most of which 1 2 have been extremely positive; correct? Yes, sir. 3 Α. 4 Q. And was that true and accurate at the time you wrote it? 5 6 Α. Yes, sir. 7 0. And is it true and accurate today? 8 Α. Again, my experiences with ACS, 9 slash, Xerox was very positive. 10 0. And that's true of the City of 11 Cleveland not just you, Mr. Flask, personally? 12 That's correct. 13 Ο. Okay. I think we are probably at the point where we are ready to break from your 14 15 30(b)(6) deposition testimony and just cover - 16 some topics in your personal capacity. MR. BRENNAN: So -- if that makes 17 18 sense, unless you have any issues you want to 19 cover or any questions you have? 20 MS. DINEHART: No. 21 MR. NATHANSON: No. 22 I will just redirect on the 0. 23 30(b)(6) and we will move to your personal 24 capacity. 25 Okay. So, again, now for purposes

of this testimony, you are taking off your City of Cleveland hat, you are not testifying as to things you only became aware of from other sources, you are testifying from your own personal knowledge, things you saw, things you heard, things you know personally. Does that make sense?

A. Yes, sir.

- Q. Okay. You have not been designated as the representative for the City of Cleveland on a number of topics as set forth in the exhibit I showed you, including the negotiation and execution of the contract. Is it fair to say that you are not the best person to speak to those topics?
 - A. I would agree.
- Q. Same with the drafting of the contract, did you draft the contract? Were you involved in the drafting of the contract?
 - A. No, sir, I was not.
- Q. Okay. Did you propose any particular language for the contract, review different versions or was it, in essence, you're shown the final version and you trust other folks within the City of Cleveland

Page 65 1 umbrella to give you a contract and you sign as 2 the director of public safety? Yes, sir. 3 Α. That's how it happened up the 0. 5 ladder, as I am describing it? Α. Yes, sir. 6 7 0. You weren't involved with lay or 8 attorney representatives from the City of 9 Cleveland negotiating aspects of force majeure 10 provisions or termination for convenience 11 provision; is that true? 12 Α. That's true. 13 0. Do you know who did take the lead 14 on behalf of the City of Cleveland in terms of 15 negotiating the contract at issue in the 16 litigation? 17 Although there may have been a 18 number of attorneys from the Law Department of 19 the City of Cleveland involved, I believe it 20 was Assistant Director of Law, Jeffrey Marks. 21 0. Is that answer also true of the amendment for the contract? 22 23 Α. Yes, sir. 24 Was there a layperson who was 25 primarily responsible for the negotiation as to

Page 66 1 the contract and the amendment that you are aware of? 2 I'm not aware. 3 Α. Do you know if anyone, not from the 4 0. law department, was involved in negotiating the 5 6 contract with the City -- with Xerox? I'm not aware. 7 Α. Okay. Sitting here today, are you 8 Ο. aware of the termination for convenience 9 provision in the contract? 10 Α. No, sir. 11 Are you aware of the force majeure 12 Ο. 13 provision in the contract? A. I've heard the terminology used, 14 but I'm not sure I understand it. 15 You have heard of force majeure 16 generally or in connection with this contract? 17 In connection with this contract as 18 a result of one meeting that I was in 19 20 attendance with representatives of Xerox, Jeff 21 Marks, and the representative of the City of 22 Cleveland. 23 Q. And when did that meeting take 24 place? 25 Α. Sometime in late 2014.

Page 67 Following the ballot initiative or 1 0. before the ballot initiative? 2 Following the ballot initiative. 3 I'm sorry, I didn't get all the 4 notes. Who do you recall attending that 5 meeting and where did that take place? 6 The meeting was held in the office 7 Α. of the director of public safety. I do recall 8 that Assistant Director of Law, Jeff Marks, was in attendance, as I was, of course, 10 Larry Jones II was in attendance as the 11 representative of the City of Cleveland, along 12 with a number of other individuals, who I don't 13 recall. 14 On behalf of the City of Cleveland 15 Ο. 16 or Xerox? On behalf of Xerox. It was myself, 17 Larry Jones, Assistant Director of Law, Jeff 18 Marks, representatives of Xerox, but I don't 19 recall specifically who they were or whether or 20 21 not there was any other representatives for the City of Cleveland. 22 23 Sitting here today can you name any 24 Xerox employees?

No, sir, I cannot.

Α.

Page 68 What do you recall being said about Q. 1 force majeure during that meeting? 2 I know the term was used, but I do 3 not recall the context of how it was used. 4 was -- my sense was it was a very preliminary 5 conversation --6 Okay. Do you know --7 Q. -- that didn't result in any Α. 8 decisions. And I cut you off. It did not 10 0. result in any decisions? 11 12 Α. That's right. So, in other words, tell me if I'm 1.3 inaccurately restating your testimony, but 14 following the ballot initiative there's a 15 meeting between representatives and the City of 16 Cleveland and Xerox that sort of determined 17 where we go from here or what the next steps 18 are, as a result of ballot initiative? 19 That's my understanding. And 20 Α. that's my memory. 21 Okay. And during that meeting 22 someone uses the term force majeure? 23 That's correct. 24 Α.

And you don't recall whether there

Q.

Page 69 -- who used it or in what context they used it? 1 No, sir, I do not. 2 A . . And you don't recall what if any 3 4 response there was to someone using the term force majeure? 5 Α. No, sir, I do not. 6 7 And as a result of that meeting no decision was made, there was no action plan, 8 sort of where do we go from here was left an 9 10 open item? 11 Α. That's correct. 12 And when did you first become aware of the ballot initiative? If the ballot 13 14 initiative is passed in November, when did you first become aware of it? 15 16 I believe sometime in the spring of 17 2014. Specific dates, I just -- elude me. 18 Ο. Understood. 19 Α. Yeah. 20 And how did it come to your Ο. attention, the ballot initiative, in the spring 21 22 of 2014? 23 Through some media reports. Α. 24 0. Okay. In other words, you saw reports that voters were gathering signatures 25

and potentially putting this on the ballot?

A. That's right.

24

- Q. That didn't come to your attention as a result of anything internal in the City of Cleveland? In other words, conversation with another City employee or a memo or a document?
 - A. None that I recall.
- Q. When you first heard about that media report, do you recall whether that was a media report on Cleveland dot com, The Plain Dealer, whether it was televised, radio?
 - A. I don't recall the exact source.
- Q. Okay. Regardless of the medium from which you first heard about it, is it fair to say your initial reaction was not positive? In other words, I hope this doesn't get passed because this is a great program and it's helping the City of Cleveland?
- A. I was disappointed that it was even being considered.
 - O. For the reasons I've articulated?
 - A. That's correct.
- Q. And what did you do, if anything, in response to hearing that the voters might put it on the ballot in November?

A. I remember interacting with the press department, the media department of the mayor's office, providing some information in response to some media inquiries about the program itself.

My role was limited in providing statistical information and other things to the press offices in Cleveland.

- Q. Okay. And was that a proactive measure on your part or responsive to inquiries from your media coverage?
- A. I believe it was reactive on my part.
- Q. So, in other words, someone from your internal media folks calls you up, shoots you an e-mail and says, hey, there might be a ballot initiative?
- A. It wasn't about the ballot initiative. It was about, what are the facts about the program itself, you know, revenue streams, number of tickets being issued and rates and so forth, that kind of information that the police division and public safety maintained at that time was shared with the press office.

2.1

- Q. Okay. But you understood that those inquiries were being made by the media in the spring of 2014?
- A. Well, they may have been made even earlier than that, throughout the previous ten years or so that they had been in existence, but certainly spring of 2014, as I remember.
- Q. Okay. Which came about as a result of the fact that the voters were, perhaps, putting something on the ballot?
 - A. It was a petition effort underway.
- Q. And other than responding to internal requests from your media folks, did you do anything else to address the possibility that voters might put a ballot initiative?
- A. My role significantly changed on February 10th of 2014, so my direct involvement with public safety, other than in a supportive role, was -- my role of public safety was minimalized, February 10th, 2014.
- Q. Did you ever talk with Mayor Jackson about the ballot initiative either before or after it was passed?
- A. I can say I'm sure that I did, but I don't recall when or the content of the

2.2

Page 73 1 conversations. 2 All right. I want to try to break Q. that down, even if you don't have a memory. 3 Do you recall speaking to Mayor 4 Jackson about the ballot initiative before it 5 6 was passed? I don't recall. 7 Do you recall speaking with Mayor 8 0. Jackson after the ballot initiative was passed? 9 10 I have spoken with the mayor late 11 last year regarding the absence of the traffic 12 enforcement cameras, certainly in 2015. And what triggered that 13 Ο. 14 conversation? A. Statistical information that I 15 16 became aware of that showed a significant increase in pedestrian fatalities within the 17 City of Cleveland. 18 19 0. Did you initiate the conversation 20 with the mayor or did he initiate the conversation with you? 21 22 I initiated it. 23 You went to the mayor and you said, 0. 24 Mayor Jackson, now that we don't have cameras

there is a greater number of pedestrian

fatalities and we have to do something about this?

A. I had a conversation with the mayor and the chief of police and the traffic commissioner.

Traffic -- pedestrian traffic

fatalities were not tracked on a weekly summary
report as prepared by the Division of Police,
and I recommended to the chief that it be
included in the weekly summary report. And I
think that's how the conversation involving, at
least my briefing, the mayor of what action I
had done.

- Q. Okay. But in the course of that conversation there was some nexus between the traffic cameras and the fatalities? In other words, you are communicating to the folks at the meeting, we don't have the cameras, fatalities are increased?
- A. Well, the conversation was broader than just the cameras. I also saw a significant decrease in traffic enforcement activities by officers of the Cleveland Division of Police. Statistically I saw, in 2015, that the number of traffic citations

issued by officers had decreased about 25 percent.

So the information, as I remember sharing with the mayor is, we have a two-fold issue here, decreased enforcement by uniformed officers, the absence of traffic cameras and traffic cameras may have led, I had to qualify by saying may have led, to a significant increase of traffic pedestrian fatalities here in the City of Cleveland. Although, I couldn't have any evidence to support, you know, scientific data to support my belief. The two factors took place simultaneously.

- Q. And you can't think of other factors that may have resulted in the --
- A. I did see that, beside the City of Cleveland, there was an increase in pedestrian fatalities. I saw that the numbers were edging up in the cities and in areas all across the country, so it wasn't unique just to the City of Cleveland.

There may have been other factors, including but not limited to, texting and conversations on the phone. There may have been a multitude of factors for which I am not

aware. But I did see the two statistics that coincided with the rise.

- Q. Do you recall when it was that officers started to issue fewer tickets?
- A. I do not know the time frame, but I did, during my review, it was last August or September of last year, 2015. I just did a cursory check on some data that was provided by the Division of Police that stood out as being various and historical numbers.
- Q. But do you recall when that -- if that decrease started to take place in November of 2014 or subsequent to that?
 - A. I do not know.
- Q. But if I asked you to go back to your computer and pull that data, you believe you would have a report that would show, on a monthly or a weekly basis, the number of citations issued?
- A. Cleveland Division of Police has a weekly report that's prepared that identifies the number of enforcement actions taken, along with reported crimes within the City of Cleveland that's prepared on a weekly basis.
 - Q. And that report exists going back

Page 77 1 years? I do not know how long they have Α. 2 been retained, but the basic format of the 3 report dates back until 1996, 1997. 4 5 0. Okay. And specific as to the -and do you recall when this conversation was 6 7 that you had with the mayor? I believe late last summer, early Α. 8 fall, 2015. 9 Do you know whether you have a 10 0. 11 calendar entry that would reflect that meeting? I would -- I do not recall. 12 Α. Okay. Would you expect that you 13 0. would, that's your practice to keep those types 14 of entries? 15 I keep a record of those items, 16 Α. those meetings or discussions or points in time 17 that I may need to refer back to for a 18 statistical reporting for documentation 19 20 purposes. A normal conversation with the mayor probably would not have been retained for that 21 But a conversation with the chief 22 purpose. probably would. 23 Okay. So I believe your testimony 24 0. was, and correct me if I am wrong, it's, you 25

know, February of 2014, your role in public safety is getting minimized; correct?

A. That's correct.

- Q. So why is it that now we are moving into 2015, you're having conversations with the mayor and other folks about the traffic program and other issues?
- A. I was a recipient of the weekly statistical report provided by the Division of Police. And I would give it a cursory review on a weekly basis. And then my review was normally cursory. But when I looked at -- in more detail some statistical matters I saw that the numbers stood out as a significant decrease. So I called the traffic commissioner and had a conversation with a few folks to figure out what was going on and why that decrease had occurred.
- Q. And you reviewed those statistics at the time on a weekly basis?
- A. I was a recipient, but because of my role and not being directly involved in the oversight of public safety, although I was a recipient, I would review it, I would see it, do a cursory review, it was normally just a

Page 79 1 normal report. For some reason -- I focused on this one for some reason, I can't tell you why. 2 3 Switching topics a little bit. Is it fair to say that the -- and I'm talking 4 5 about the time period prior to November of 2014, that the Traffic Camera Program, not 6 7 everyone within Cleveland City Council agreed with the Traffic Camera Program? 8 9 There were supporters and 10 detractors, but to answer your question 11 directly, there were some who did not support 12 it. 13 It was a hot button topic O . politically? 14 15 MS. DINEHART: I'm sorry, can you repeat that question? 16 17 0. It was a hot button topic politically? 18 A. No more or no less than some 19 20 others. There certainly were some folks 21 22 within City Council who voted against traffic 23 cameras? 24 Α. Correct. There were folks, members of City 25 Q.

Page 80 1 Council, who came forward and said I don't want these traffic cameras in my ward? 2 Α. That's right. 3 Do you recall who the Council 4 5 members were who voted against the Traffic Camera Program? 6 7 Α. I do not recall the vote, who voted for or against it. 8 9 0. All right. I do not recall. 10 11 0. Do you recall which Council members came forward and said, please, do not put these 12 13 in my ward, I don't want them? I remember two that I can recall. 14 A . 15 Ο. Okay. Councilman Zack Reed, Zachary Reed, 16 Α. and I believe Councilman Terrell Pruitt, in 17 ward one, did not want any cameras installed 18 within his ward. 19 And when did Councilman Pruitt 20 0. 21 bring that to your attention? 22 Α. 2013. Do you know when in 2013, before or 23 after the contract renewal? 24 During the discussions with City 25 Α.

Page 81 Council on our recommendation to award the 1 2 contract to Xerox. And what do you recall Councilman 3 0. 4 Pruitt saying to you? Department of Public Safety had 5 Α. made a recommendation based on statistical 6 7 information and accident reporting that a camera may be valuable to a certain area of his 9 I remember him telling me personally that he would get back with me and later he 10 said he wished not to have it in his ward. 11 12 Do you recall what words he used or 0. language he used? 13 14 Α. Other than saying he didn't want them in his ward, I don't remember him 15 16 specifically saying why. I didn't ask him why. 17 There was no statement, I find 0. these things to being a nuisance or taxing our 18 19 residents or I don't believe they promote public safety, any of those things? 20 21 No, sir. Α. 22 0. Okay. No, sir. 23 Α. And did you ultimately agree with 24 0.

that recommendation or that --

Page 82 A . Yes, sir. 1 And why? Did you conclude that it 2 0. wouldn't have promoted public safety or you 3 just acceded to the wishes of the Councilman? 4 It was my understanding that the Α. 5 locations were imbedded within the legislation 6 7 itself. They are required, specific locations, to be approved by Council. So they were imbedded within the legislation to identify 9 specific locations. If they weren't there, the 10 cameras wouldn't be there. So the Council, in 11 order to get Council approval, if the 12 Councilman didn't want it in his ward, we 1.3didn't include it. 14 Your goal was to get Council, the 15 majority of Council, to approve? 16 To support the program, that's 17 18 correct. And if that means some Council 19 Ο. members don't want them in their ward and the 20 vote was in favor of it, you were in favor of 21 doing that? 22 Yes, I was. 23 Α. Moving on to Councilman Reed, you Ο. 24 recall him indicating that he didn't want 25

cameras in his ward?

- A. Yes, I do.
- Q. And when did he convey that to you?
- A. As a result of a Council boundary realignment the previously posted traffic camera location was within his new boundary of his new Council ward, I believe it was on Broadway Avenue. He asked that it be immediately removed from his ward. Councilman Brancatelli says, move it to mine. And I think that action was taken. So it was moved from his ward about five blocks up the street to Brancatelli's ward up Broadway Avenue.

I do not remember if that was pre 2013 -- although, I believe it was pre 2013, I just don't recall the time frame. But I do remember the action being taken.

- Q. And do you recall in specifics what he said to you? Hey, I don't think these things are effective or just a money trap or anything?
- A. He was -- I don't believe that he ever had any one on one conversation with me regarding the program. His comments and his position was stated that Council committee

hearings are on the floor of Council.

- Q. And do you recall him, during those communications, taking the position that the Traffic Camera Program is more about revenue than it is about public safety?
- A. I recall -- I remember very clear that he was adamantly and vocally opposed to the program, but I do not recall his specific argument.
- Q. But you would have recalled it if it dealt with public safety? In other words, if he was making public statements in front of City Council saying, these don't work, they don't stop accidents?
- A. I don't recall him ever stating anything even close to that.
- Q. Okay. And, in fact, you know, we can all hop on and Google, you know, there have been a number of instances where he was opposed to the program because he thought it converted from being about public safety to being about a revenue source, is that your understanding?
- A. I would have to go back and look at some of these articles. I just don't remember the justification for his position. In my

2.2

Page 85 mind, my memory was, I don't think he ever 1 2 equated safety with the program, it was other 3 issues. And I'm not sure why those issues were 4 there. I sense and, again I would have to say you would have to qualify this, but his 5 residents in his ward were opposed to it, 6 7 therefore, he was. Fair point. 8 0. 9 Α. Yes. 10 But regardless of his reasons, you never heard from him or his constituents that 11 12 this was not an effective public safety tool? No, sir. 13 Α. 74 Q. Something else was driving his 15 motivation? 16 Α. That's correct. 17 I will represent to you and the record will reflect it, but Council members 18 19 Brady and Cimperman also voted against the 2013 20 contract. Does that refresh your memory at 21 all? 22 No. sir. Α. 23 0. You don't recall them being opposed 24 to the traffic cameras? 25 Α. I don't recall.

- Q. All right. You don't recall any conversations with them about whether they were in favor or against the traffic cameras?
- A. The only ones that I personally had any one on one dialog with was Councilman Pruitt, Terrell Pruitt.
- Q. Okay. Let's step back in time a little bit. Going back to the first traffic camera contract, 2015, before the City of Cleveland takes on the new endeavor it didn't have traffic cameras beforehand. I take it the City of Cleveland does some due diligence to determine, hey, whether or not we should be involved in the business of traffic camera?

 MS. DINEHART: And, object, just for the record, because you said 2015, I think
- Q. 2005. I'm sorry if I misspoke. 2005.
- A. In 2005 I was the security manager of airport security for Cleveland Hopkins
 Airport. I didn't assume this role until the contract had already been awarded. So in terms of due diligence and studies or analysis or justifications, I will say that I, as director

you mean 2005.

of public safety, I inherited the program that was already in place prior to me coming.

- Q. When was the first point in time where you decided, hey, I need to take a look at this and determine whether or not the City of Cleveland should continue a Traffic Camera Program?
- A. Sometime after January 1st of 2006, but prior to the first renewal. I just don't recall the time frame.
 - Q. Okay. Between 2006 and 2011?
- A. Well, I think there was a renewal that had been made prior to that. I just don't remember the terms of the original contract, whether or not it was for two years or year by year extension or whether it was four years or five years, but sometime before the first renewal, but I believe it was prior to 2011. Certainly I had an understanding of the program and its value prior to 2011, when we asked for the extension.
- Q. And the, sort of, year or date is largely irrelevant, but regardless of when your date took place, before you are going to give consideration to and make a recommendation, do

2.0

2.1

we continue this program or not, you gather empirical evidence to see whether the program was effective or not; correct?

A. We did review the data, in terms of accidents, locations, looked at some statistical information that was provided to us, I believe by accounting, accident location throughout the region. Looked at revenue stream, of course, looked to see the measures to see whether or not there was an increase or decrease, what was happening in the community.

We took a number of information into consideration, including accidents, traffic enforcement, citations being issued or notices being issued and the revenue stream, of course.

- Q. In the course of doing that review, did you review any data from other jurisdictions outside of the City of Cleveland?
 - A. Yes, we did.
- Q. Do you recall what cities or municipalities you became aware of?
- A. We looked at comparable -- I remember looking at comparable -- or similar programs, not comparable, similar programs in

other cities across other regions throughout,
look at the effect of this, how they were
utilized and the technologies they were
utilizing for the programs, but prior to 2011.

- Q. During the course of that review it came to your attention that there were certain cities who had enacted or began a Traffic Camera Program, but later disbanded it as a result of voter initiative city or state wide?
- A. I don't recall reviewing any data for any communities that had a program disbanded. I just don't recall.
- Q. And I don't want to limit it to data.
 - A. Yes.
- Q. But you were generally aware at that point in time that there had been instances in the United States where municipalities had begun a Traffic Camera Program only to see the Traffic Camera Program cease following a voter initiative city or state wide?
- A. I'm aware that programs had been eliminated, but not why. I can't answer that question directly and articulate any specific

knowledge or incident that I had regarding a program being abolished because of legislative initiative. I'm not aware.

- Q. But you were certainly aware, prior to 2013, that the City of Cleveland's neighbor, East Cleveland, had a legislative measure to ban or limit the use of traffic cameras?

 MS. DINEHART: Objection to that question.
- A. I don't remember. I just don't remember.
- Q. Are you aware, sitting here today, that other municipalities, other than the City of Cleveland, in this community, whether it's South Euclid, East Cleveland or going a little further east, Ashtabula, had limited or banned the use of traffic cameras?
- A. I don't know. I know that some communities continue to use them, but I don't know under which authority or policy in which they continue to use them. Like Newburgh Heights, I have not followed it closely since the voter amendment in 2014.
- Q. But moving back to the beginning of 2014, when you first heard about the City of

Page 91 Cleveland ballot initiative, I take it you 1 weren't shocked to find out, oh, my goodness, 2 voters might not like this and might try to 3 limit it or eliminate it? 4 5 Α. Well, I was both surprised and, as I stated earlier, disappointed. 6 7 Q. Why were you surprised? It never occurred to you that voters may not like the 8 traffic cameras? 9 I know that some citizens, some 10 11 people who were cited were displeased with getting a violation notice, but I thought the 12 overwhelming -- my opinion is that the program 13 had such value that people would support it. 14 So going into November of 2014 you 15 thought the ballot initiative would fail? 16 17 Α. I was surprised that it had got 18 that far. 19 (Thereupon, Plaintiff's Exhibit 4, 20 NPR Article, was marked for purposes 21 22 of identification.) 23 24 I will show you what we will mark Q. for purposes of identification Plaintiff's 25

Page 92 Exhibit 4, which for purposes of identification 1 2 is an NPR Article dated February 22nd, 2014. And if you turn to the second page 3 of this exhibit, if you look in the lower 4 left-hand block, it says, here are cities that 5 rejected traffic cameras in 2011, Albuquerque. Ashtabula. Bellingham, Washington. Dayton, 7 Texas. East Cleveland, Ohio. If you turn the page, Garfield Heights, Ohio. Longview, 9 Washington. Monroe, Washington. South Euclid, 10 Ohio. Do you see that? 11 12 Α. Yes, sir. Is it fair to say that you would 13 have known on or about the time of this article 14 that voters in other states --15 16 I was familiar with Garfield Heights, as I see the name here I remember 17 following that matter in the City of Garfield 18 Heights. 19 So you knew about it at the time, 20 contemporaneously; correct? 21 Yes, sir, that's true. 22 Α. 23 0. So in about 2011 you knew that another community in Cuyahoga County had banned or limited the use of traffic cameras? 25

Page 93 I am familiar with Garfield 1 Heights, that's correct. 2 You were familiar with that, in 3 other words, the voters banning the use of 4 5 traffic cameras? 6 That's correct. Α. 7 0. That risk that possibility that 8 voters in Cleveland might try to limit or ban the use of traffic cameras, is it fair to say 10 that given the overall benefits of the traffic 11 camera you thought it better to have the 12 program and take what you hoped was a de 13 minimus risk, that it might be banned or limited? 14 15 Α. You will have to restate the 16 question, because --17 Q. Yes. 18 So, obviously, from Garfield 19 Heights you knew that it was within the realm 20 of possibility that like Garfield Heights, City 21 of Cleveland could ban traffic cameras, that's 22 voters? 23 That's correct. 24 Q. When entering into a contract with 25 Xerox in 2013, you're going to look at all

different factors, is the contract going to benefit public safety, is there a possibility it could be eliminated after a year, and on balance, it would have been your mindset that given the tremendous benefit of public safety of the Traffic Camera Program, we are willing to take the relatively low risk that the voters might not approve of this measure going forward?

- A. Again, you are asking me my opinion as former director; correct?
 - Q. Correct, yes.
- A. I believe that the program's value was, to the extent that if there was a risk, again, if there was a risk, and I'm not sure that there was at this time, at least in my mind, doing the action that they took, the program had significant value and should proceed.
- Q. The value of the program exceeded any potential risk that the voters might try to end the program?
 - A. In my opinion it did.
- Q. Other than -- I think I refreshed your memory with Garfield Heights, can you

Page 95 think of other municipalities that you knew of in 2011 or 2012 that banned traffic camera? I can't tell you why I focused on Garfield Heights. It's close to my home and those kind of issues, but I just remember following it and reading a certain amount of media coverage on it at that time. But other than Garfield Heights, I don't remember any other communities identified in this article. Moving into post November, before 2014, sitting here today, are you aware of why the City of Cleveland terminated the Traffic Camera Program? Well, I have an understanding of what I believe to be the reason. And let me stop you there. 0. Α. Yeah. Because I don't want any 0. understanding that came from your attorneys.

Do you have an understanding, other than from lawyers, as to why the Traffic Camera Program stopped?

- Voters made a decision. Α.
- And what's your understanding of Q. what that decision meant?

Page 96 That prohibited the use of traffic 1 cameras for enforcement purposes in the City of 2 Cleveland. 3 And do you have an understanding of 4 whether or not the City of Cleveland, following 5 6 the ballot initiative, could continue to pay Xerox monies under the contract? 7 Restate that question for me, 8 Α. please. 9 I will try to say it again and if 10 it doesn't make sense --11 Okay. 12 Α. -- I will ask another question. 13 0. But do you have an understanding as 14 to whether or not, following that ballot 15 initiative, the City was prohibited from paying 16 Xerox monies under the contract? 17 Α. 18 No. You don't have an understanding one 19 0. way or the other? 20 21 I do not have an understanding. Α. Okay. Do you have any 22 0. understanding as to why Xerox hasn't been paid 23 by the city of Cleveland following that ballot 24

initiative?

- A. I'm trying to respond to this without saying it's my understanding. The City canceled the contract and that ended the program.
- Q. Okay. And are you aware that there's a provision in the contract, a termination provision, that says if the City cancels the contract, as you testified, the City has to pay Xerox a termination fee?
- A. I'm not aware.
- MS. DINEHART: Objection. Asked and answered.
 - Q. You are not aware of that?
- A. No. No, sir.
- Q. You weren't in any discussions,
 involved in any discussions about whether or
 not the City of Cleveland should pay that
 termination fee?
- A. Other than the meeting, which I
 articulated with the representatives from Xerox
 following the vote, was in a meeting or
 discussion that I was a participant.
 - Q. Did that termination fee come up in that meeting?
 - A. I don't recall.

24

Page 98 Q. When do you recall it first coming to your attention that there may be a termination fee in the contract? Sometime after Xerox initiated the litigation. And how did that come to your 0. attention? I believe a consultant for -- a consultant for Xerox called me and asked me to help facilitate a meeting so he could put the matter to rest. I shared that information with the director of public safety -- not the director of public safety, the Director of Law, Barbara Langhenry, that I had received a call and was asked to help facilitate a meeting. Who was the consultant? A. Eddie, E-D-D-I-E. Eckart, E-C-K-A-R-T. And I just want to make sure we 0. have a timeline of when this would have occurred. Well, I can --Α. And, unfortunately, I only have the benefit of an amended complaint, but Xerox

filed an amended complaint in August and

Page 99 probably the original complaint in June of 1 2015, would it have been closer to the time of 2 the --3 I remember --4 Α. Q. -- ballot initiative? 5 -- a conversation that I had with 6 Α. 7 Eddie Eckart, because I was informed of the same, and I believe it was in April of 2015. 8 And what did Eddie say to you? Q. That it was a goal, I think in his 10 Α. mind, again, the exact conversation was that 11 12 they were hopeful that the City and Xerox could come to some kind of resolution. And I thanked 13 him for his call. I told him where I was at. 14 15 Told him I would get back with him or someone would get back and I shared the information 16 17 with the Director of Law, Barbara Langhenry. 18 I don't want to know what you spoke 0. 19 about with Barbara. 20 Α. Okay. 21 But was it Eddie that brought up 22 there was a termination fee in the contract? 23 Α. No, I am sure he did not. Your knowledge of the termination 24 Q. 25 fee came from the law department, I don't want

to know the substance of those conversations, but that's where it came from?

- A. I believe so, but I can't state specifically whether it was the law department or from another public safety source. I did learn of it, but I don't remember the source of that information.
- Q. And after you learned of it, did you go back to review the contract to see what the contract said about a termination fee?
 - A. No, sir, I did not.
- Q. Sitting here today, do you have an understanding of the termination provision?
 - A. No, sir, I do not.
- Q. I take it you didn't make any recommendations to anyone within the City of Cleveland to pay or not pay a termination fee?
 - A. No, sir.
- Q. I'm sorry, it was a double negative. My statement is correct?
- A. I did not make a recommendation to anyone regarding the settlement of this litigation.
 - Q. Is it your understanding that after the ballot initiative the cameras couldn't be

Page 101 used for surveillance? 1 I don't recall that ever being discussed. 3 4 0. Okay. But you knew that the cameras had that capacity to be used for 5 surveillance? That's correct. Α. And that the ballot initiative was 8 being driven by citations rather than 9 surveillance? 10 11 It was being driven by enforcement, 12 that's correct. 13 And is it fair to say that the 14 cameras could have continued to operate and used for surveillance? 15 16 I believe the technology would 17 support that. 18 Q. But you didn't have any discussions with anyone within the City of Cleveland to 19 20 say, hey, the surveillance aspect of these cameras are valuable, let's keep them on even 21 if they are not issuing citations? 22 23 Α. I did not. They could have been used that way? 24 Ο. I believe it's possible they could 25 Α.

Page 102 have. 1 0. And, as you have previously testified, there some benefits to the cameras, 3 4 even if they are not operable? In other words, 5 folks see the signs, they see the cameras, they 6 slow down, they stop running red lights; 7 correct? I believe that there is -- if 9 there's consequences for failing to adhere to the signage and speed limit. 10 11 0. Well, not only are there 12 consequences, but there's -- it impacts driver 13 activity, whether or not you receive a 14 citation? In other words, I'm going to slow 15 down if I see a sign, I'm not going to run a 16 red light if I see a sign or a camera? 17 I believe that it has an impact if 18 there's a linkage between the signage and the 19 potential consequences by failing to adhere to the speed limit or red light. 20 But not everyone who eventually 21 22 slows down in a traffic zone receives a citation? 23 24 Α. That's right. 25 There an impact of seeing the sign Q.

and deciding, I'm going to hit the brakes, I'm not going to go 35 in a school zone, I'm going to go 20?

- A. The signage is there without any potential risk to the motorist for failure to adhere to it. There is no follow through, no consequences. I don't think -- the sign loses its effect.
- Q. Well, do you know what percentage of the drivers in the City of Cleveland actually know whether or not there's been a ballot initiative and impact to the traffic cameras?
 - A. I do not.
- Q. Fair to say there is a substantial portion of folks who, if you left up the signs and cameras and didn't have the cameras operative, would still say, oh, my goodness, I need to slow down, I need to not run a red light?
 - A. Might.
- Q. Would that be your best understanding of what would likely happen if there was a significant percentage of drivers who would see the cameras, see the signs and

not violate City laws?

MS. DINEHART: Objection.

- A. It would be a guess on my part. I couldn't respond with any kind of certainty to that possibility.
- Q. Okay. But you do know that not every driver receives a violation, that there are drivers who don't receive a violation were encouraged by the signs and the cameras to adhere to the traffic laws?

MS. DINEHART: Objection.

- A. I believe that it is the placement of the traffic cameras, the warning signs, and the program itself had an impact on individuals reducing their speed -- speed within the City of Cleveland.
- Q. Following the ballot initiative, did you give any consideration to whether or not the cameras and signs should remain in place as a deterrent to speeding and running red lights?
- A. No. I did not. I was not in a role at that time to -- I was not in a role at that time to make that kind of recommendation if I had agreed.

- Q. Do you recall any conversations on that topic?
 - A. I recall none.
- Q. And I should expand it. Any communication on that topic, whether they were oral or in writing?
 - A. None.

- Q. Other than the communication you had with Mr. Eckart, which was passed along to the City of Cleveland following the ballot initiative, do you recall any conversations about resolving the conflict with Xerox, other than with counsel?
 - A. None.
- Q. Okay. And I don't need to show you, but I will represent to you there were a number of pieces of correspondence exchanged between Mr. Jones and others within the City of Cleveland on the one hand and Xerox on the other, following the initiative. I don't see you copied on those communications, but I just want to confirm that you weren't receiving those communications or weighing in on those communications?
 - A. I had no memory of receiving any

Page 106 correspondence post 2000 -- the vote, the electoral vote. I don't receive -- other than my limited contact with Eddie Eckart, none. Okay. Similarly, following the 0. initiative, you weren't involved in any discussions or decisions about, we should not pay Xerox, we should pay Xerox a termination fee or we should pay Xerox on a monthly basis through the life of the contract? Α. No, sir. Okay. When did you first learn 0. about this litigation? Although I may have anticipated Α. some litigation, I don't believe I learned about it until sometime after it was initiated by Xerox. I just don't remember the time frame.

- Q. Okay. And what effort, if any, have you taken to preserve documents that may be relevant to the litigation?
- A. Archiving in my calendar those notes and information that I may have had some relationship to this litigation.
- Q. When you say archiving, what did you do?

9

10

11

12

- Q. -- does your e-mail have an auto delete function?
- A. I do not believe so. I don't -- anything deleted, I think the individual would have to delete themselves.
- Q. Does there come a point in time
 where your e-mails rollover to an archive
 rather than --
- A. I believe that they're archived after the end of the calendar year is my understanding.
- Q. Okay. So all of your e-mails in 20 2015 get archived beginning of 2016?
 - A. I --
- MS. DINEHART: If you don't know, don't guess.
- A. Yeah. I moved from one safety

 system to a city wide e-mail system server. I

don't know what happens, what's available prior to 2014. I just don't know.

- Q. Did you keep a hard copy file, as it relates to the Xerox contract for the Traffic Camera Program?
- A. I did not personally maintain any files.
- Q. Is it your practice to take notes during meetings?
 - A. Generally I will.
- Q. Do you have any notes on your meetings with Xerox or the City of Cleveland relative to the Traffic Camera Program?
 - A. Nothing that would not have been retained in my Outlook system.
 - Q. Just so I understand your practice, is it your practice to take handwritten notes, convert those notes to a written format?
- A. Or recollections that I have had from the meeting, just a synopsis of the meeting that I would retain within my Outlook calendar.
- Q. Once you are done transferring your handwritten notes to the electronic format you dispose of those handwritten notes?

Page 109

A. If I took any, usually, it was mostly recollection. This was the topic, this was the conversation, this was the program, this was the agenda, and put it in my Outlook.

- Q. Are you aware that following the ballot initiative that Xerox continued to provide services for the City of Cleveland? Are you aware of whether tickets continue to get processed and paid following the ballot initiative?
- A. I do remember that for some period of time following the ballot initiative that tickets were still being provided to the Division of Police and the clerks of courts for some period of time.
 - Q. Do you know whether that continues to today?
 - A. No, sir, I do not.
 - Q. Were you involved in any discussions or decisions relative to, should the City of Cleveland continue to process tickets following the ballot initiative?
- A. I believe that discussion was held, but I was not a participant in it.
 - Q. How did it come to your attention

Page 110

that such a discussion was held?

- A. It may have been third-hand information from the Department of Public Safety, Director of Public Safety or someone within Public Safety, that I just don't recall whom in the timeline format.
- Q. Regardless of the whom or the time, was the substance of the communications, hey, we are going to continue to process tickets and collect revenue?
 - A. I don't recall that conversation.
- Q. What do you recall about the substance of the conversations?
- A. That some tickets or some notices that had been issued prior to are violations that had been identified prior to the ballot initiative were waiting to be processed, they were in the queue for possessing by either the Division of Police or Clerk of Courts. So there was a period of time where there was a backlog of citations or notices prior to the ballot that were in the queue that violations had been identified that were waiting to either be processed by police or the Clerk of Courts.

Are you aware of Xerox having any

Q.

Page 111

role in the processing of those violations following the ballot initiative?

- A. I know what their -- my understanding was their role, of course, was to provide information to the Division of Police for validation purposes and to the Clerk of Courts. So they had a specific role in that and they did provide information that were violations to the Division of Police, the Clerk of Courts, ultimately the Clerk of Courts.
 - Q. Following the ballot initiative?
- A. Prior to, I'm not sure about afterwards.
 - Q. So sitting here today, you don't know whether Xerox continued to provide services following the ballot initiative and as a result the City of Cleveland received millions of dollars in revenue at a time when the City of Cleveland wasn't paying Xerox?

 MS. DINEHART: Objection. Compound question.
 - A. I'm not aware of that.
 - Q. Are you surprised to learn that fact, that the City of Cleveland wasn't paying Xerox, Xerox continued to provide services and

Page 112 1 as a result that Cleveland made millions of dollars in revenue? 3 Α. No. MS. DINEHART: Objection. Compound 4 5 question. 6 Α. I don't know that. I don't know that. 7 Whether or not you know it, does 8 Q. 9 that surprise you? 10 First of all, I don't believe it, 11 but I don't want to challenges anybody's 12 veracity here. I don't believe it. Because that wouldn't make sense? 13 0. 14 Α. That's correct. 15 0. I'm sorry? 16 Α. That's correct. 17 MR. BRENNAN: Why don't we take a 18 quick five-minute break? 19 (Short recess had.) 20 Sir, just so you are aware, 0. 21 document production has not yet been completed 22 in the litigation, so there is a possibility I 2.3 would ask to continue your testimony at some 24 later date, but, you know, as of right now this 25 concludes your testimony for today. I

Page 113 1 appreciate your time and your cooperation. Thank you. 2 Α. 3 Q. Thank you. At this point you MS. DINEHART: 4 5 have the opportunity to either read the 6 transcript of the deposition or trust that 7 Christine has done a wonderful job. Hooray. When you do have the opportunity to read you 8 9 can correct basic typographical errors, but you 10 can't change your testimony. We would 11 recommend at this point that you waive, but it is up to you. What would you like to do? 12 THE WITNESS: I would like to 13 14 waive. 15 (Deposition concluded at 11:54 a.m.) 16 17 18 19 20 21 22 23 24 25

Page 114 Whereupon, counsel was requested to give instruction regarding the witness's review of the transcript pursuant to the Federal Rules. SIGNATURE: It was agreed by and between counsel and the parties that the reading and signing of the transcript of said deposition, be and the same is hereby waived. TRANSCRIPT DELIVERY: Counsel was requested to give instruction regarding delivery date of transcript.

Federal Rules of Civil Procedure Rule 30

- (e) Review By the Witness; Changes.
- (1) Review; Statement of Changes. On request by the deponent or a party before the deposition is completed, the deponent must be allowed 30 days after being notified by the officer that the transcript or recording is available in which:
- (A) to review the transcript or recording; and
- (B) if there are changes in form or substance, to sign a statement listing the changes and the reasons for making them.
- (2) Changes Indicated in the Officer's Certificate. The officer must note in the certificate prescribed by Rule 30(f)(1) whether a review was requested and, if so, must attach any changes the deponent makes during the 30-day period.

DISCLAIMER: THE FOREGOING FEDERAL PROCEDURE RULES

ARE PROVIDED FOR INFORMATIONAL PURPOSES ONLY.

THE ABOVE RULES ARE CURRENT AS OF SEPTEMBER 1,

2014. PLEASE REFER TO THE APPLICABLE FEDERAL RULES

OF CIVIL PROCEDURE FOR UP-TO-DATE INFORMATION.

VERITEXT LEGAL SOLUTIONS COMPANY CERTIFICATE AND DISCLOSURE STATEMENT

Veritext Legal Solutions represents that the foregoing transcript is a true, correct and complete transcript of the colloquies, questions and answers as submitted by the court reporter. Veritext Legal Solutions further represents that the attached exhibits, if any, are true, correct and complete documents as submitted by the court reporter and/or attorneys in relation to this deposition and that the documents were processed in accordance with our litigation support and production standards.

Veritext Legal Solutions is committed to maintaining the confidentiality of client and witness information, in accordance with the regulations promulgated under the Health Insurance Portability and Accountability Act (HIPAA), as amended with respect to protected health information and the Gramm-Leach-Bliley Act, as amended, with respect to Personally Identifiable Information (PII). Physical transcripts and exhibits are managed under strict facility and personnel access controls. Electronic files of documents are stored in encrypted form and are transmitted in an encrypted fashion to authenticated parties who are permitted to access the material. Our data is hosted in a Tier 4 SSAE 16 certified facility.

Veritext Legal Solutions complies with all federal and State regulations with respect to the provision of court reporting services, and maintains its neutrality and independence regardless of relationship or the financial outcome of any litigation. Veritext requires adherence to the foregoing professional and ethical standards from all of its subcontractors in their independent contractor agreements.

Inquiries about Veritext Legal Solutions' confidentiality and security policies and practices should be directed to Veritext's Client Services Associates indicated on the cover of this document or at www.veritext.com.
